Russell,

Good to hear on the progress.

Yeah, that was a screw up on our part. The SKUs were still active in our system, and if SKUs are active the catalog team will add them. We have no plans to pursue these with GWACS, as we have not heard from them since 2018.

Paul,

We're still working on moving forward with our polymer receiver project and I hope to have finalized costs for you in the next 1-2 weeks after an investor meeting.

I just saw this in the latest catalog. Have you had further contact with GWACS, or is this old info that wasn't removed?

Regards,
